

# Sight Windows for Hygienic Pad Connections

**NA.99**

Data Sheet 03-0050  
Rev. 01/06

## Metaglas® Sightglass for Flush Mount Fitting

For aseptic and sanitary applications, this newly redesigned, flush-mounted sight port from L.J. Star provides clear process visibility and unmatched safety with minimal maintenance requirements.

- Sleek, compact design
- Suitable for pharmaceutical & biotech processing
- Simple & fast installation with no risk of breakage
- Sight glass resistant to catastrophic failure

### Application:

Sanitary Metaglas to fit flush mount systems. One-piece design provides a cleaner look, fewer bacteria traps, and better runoff after external washdown.

### Approvals and Technical Data:

#### Metaglas®

- USP Class VI (tested to confirm biocompatibility)
- Sight glass fused to metal conforming to DIN7079
- Borosilicate Glass to DIN7080
- Ring material to TÜV specifications and DIN/EN designated standards (Duplex S.S. & Hastelloy®)
- Certificate of Conformity to EN 10204-3.1B or 3.1A
- Standard Surface Finish: 10 Ra  $\mu$ -in (0.25 Ra  $\mu$ m)
- Electropolishing available upon request

#### Flush Mount Fitting

- Weld flange material: 316L SS or Hastelloy®
- Bolting material: 316 SS
- Operating Pressure: 100 PSIG (7 bar)
- Operating Temperature: 392°F (200°C)

Metaglas Ring Material:		Operating Temperature:				
Duplex S.S. (1.4462)		-30°C to 280°C (-22°F to 536°F)				
Hastelloy C-22 (2.4602)		-60°C to 300°C (-76°F to 572°F)				
Std. Tube OD (inches)	d <sub>1</sub>	d <sub>3</sub>	S1	S	Dy	Di
1/2", 3/4"	25.0	13	6	11	55	15.0
1", 1-1/2"	50.5	30	8	14	85	35.5
2"	64.0	35	8	14	100	48.5
2-1/2"	77.5	40	8	15	112	60.2
3"	91.0	45	8	18	131	72.0
4"	119.0	60	8	18	170	97.6

All dimensions are in millimeters unless otherwise noted.

# Light Port for Hygienic Pad Connections

**NA.99 w/Light**

## Metaglas® Light Port for Flush Mount Fitting

For aseptic and sanitary applications, this newly redesigned, flush-mounted light port from L.J. Star provides up to 100 watts of intense illumination through a Metaglas® safety glass lens.

- Sleek, compact design
- Suitable for pharmaceutical & biotech processing
- Simple & fast installation with no risk of breakage
- Glass resistant to catastrophic failure
- Lights are dust and water-jet tight (IP65 & NEMA 4X)
- Lights are available with internal or remote switch for momentary on/off or timer activation

### Application:

Sanitary combination of the 316 stainless steel USL 01, USL 33, or USL 35 light and Metaglas® to fit the flush mount system. Two-piece design provides a cleaner look, fewer bacteria traps, and better runoff after external washdown.

### Operating Conditions:

- Temperature: Cable gland on light cannot exceed 194°F (90°C)

\*Approvals and Technical Data same as shown for sight port on reverse side.

### Lumiglas® Light Options:

- Voltage: 12, 24, 120, 220
- Output: 5W, 20W, 50W, 100W
- Housing: 316 stainless steel or similar
- Bulb Life: Over 2,000 hours
- Power Cable: 3 Meters (other lengths available)
- Dust and waterjet tight to IP65 & EN60529  
DIN VDE 0470 part 1, and NEMA4X

Metaglas Ring Material:	Operating Temperature:
Duplex S.S. (1.4462)	-30°C to 280°C (-22°F to 536°F)
Hastelloy C-22 (2.4602)	-60°C to 300°C (-76°F to 572°F)
